Are you individually packaging any items on-site?  □ Yes  □ No

By signing this Temporary Food Establishment application, I understand that the following (check all):

- My TFE could be inspected at any time during the setup or event.
- Failure to comply with the minimum requirements for operating a temporary food establishment may result in suspension of my operating permit, at which time I must cease all food establishment operations immediately.

Temporary Food Establishment Application

Revise: 3/1/18
MINIMUM REQUIREMENTS FOR OPERATING A TEMPORARY FOOD ESTABLISHMENT (TFE)

__PERMIT__ – This application must be submitted a minimum of 10 business days prior to the start of the event.
The approved permit must be posted during the entire event for conspicuous public view.

__DEMONSTRATION OF KNOWLEDGE__ – The Person-In-Charge (PIC) must be able to answer questions about basic
food safety knowledge to reduce the risk of foodborne illness.

__APPROVED FOOD SOURCES__
All food must be obtained from an approved source, including ice and water for food preparation, cooking, cooling,
cold holding, and cleaning.
- All shell stock (clams, mussels, oysters) must have National Shellfish Sanitation Program (NSSP) tags on site.
- Proof of purchase is required for crab meat, soft-shell crabs, and hard-shell crabs.
- Food may not be stored at a private residence. Food should never be prepared in a private residence.
- All food must be prepared on-site or at a permitted food establishment.
- Food preparation locations not owned by applicant require a signed commissary agreement.
- Out-of-state food prep locations require health department permit and most recent inspection report.

__COOKING AND HOLDING__
Food thermometers must be available to monitor cooking and holding temperatures.
Hot holding units, like steam tables or insulated containers, must be available to keep food at 135 degrees F or above.
Cold holding and storage equipment, such as refrigeration units or coolers with drained ice, must be available to keep
food at 41 degrees F or below.
- Animal products served raw or undercooked (examples: sunny-side up eggs, raw oysters, sushi, rare tuna,
cooked-to-order hamburgers or steaks, carpaccio, or raw eggs as an ingredient in mousse, Caesar salad
dressing mayonnaise) require a consumer advisory to be posted which states the following: "Consuming raw or
undercooked meats, poultry, seafood, shellfish, or eggs may increase your risk of foodborne illness." A
description or photo of how this advisory will be displayed must be submitted with this application.
- Juice squeezed on-site requires approval of (1) description of food prep sink location, (2) commercial juicing
equipment specification sheets, and (3) placard or table tent with the following statement: "WARNING: This
product has not been pasteurized and, therefore, may contain harmful bacterial that can cause serious illness
in children, the elderly, and persons with weakened immune systems."

__PREVENTING CONTAMINATION__
Food must be stored off the ground.
Only single-service (disposable) containers may be given to consumers.
A labeled three basin Wash-Rinse-Sanitize station must be ready for use on-site,
with an approved sanitizer and applicable test kit (example: quaternary ammonium
based with quat sanitizer test strips or bleach water with chlorine test strips).

__EMPLOYEE HEALTH AND HYGIENIC PRACTICES__
A handwashing station must be set up with an ample supply of warm water, soap, and paper towels.
Persons with infections or illnesses must be restricted from handling food.
Bare hand contact with ready-to-eat food is prohibited. Use a barrier like tongs, wax paper, or gloves.

__WATER SUPPLY AND WASTE DISPOSAL__
Drinking water must be obtained from an approved source utilizing food grade hoses.
Liquid waste must be disposed by an approved method.
Keep refuse in easily cleanable containers and promptly remove from preparation and service areas.

__FACILITIES__
A tent, tarp, or canopy large enough to cover food preparation, storage, and service areas must be provided.
If graded to drain, a floor may be concrete, machine-laid asphalt, or dirt or gravel if it is covered with mats, removable
platforms, duckboards, or other approved materials that are effectively treated to control dust and mud.
Toilet facilities for employees must be conveniently located and easily accessible.

__SPECIALIZED PROCESSES NOT PERMITTED DURING TEMPORARY FOOD ESTABLISHMENT OPERATION__
Food at a temporary food establishment processed on-site with any of the following methods is not permissible:
reduced oxygen packaging including sous vide and cook-chill methods, juicing for wholesale packaging, curing,
smoking, or drying fish for preservation; curing or smoking meat or poultry for preservation; fermenting sausages;
adidification, fermenting, or additives to render a product to be shelf-stable; and sprouting.

Temporary Food Establishment (TFE) Floor Plan

Sketch below the layout of your TFE and identify the location of the following:

- Cooking and holding equipment
- Handwashing and utensil washing facilities (if not using shared facilities)
- Trash disposal containers
- Work tables, food, and single-service storage
- Customer service area

If the layout of the TFE is event-specific and/or unknown, please sketch a typical layout to the best of your ability.

For questions about TFE applications, please contact the Health Program Coordinator at the EHFS office in the county where the event is being held.
