The Creamery, funded by a grant from the UNIDEL foundation and private donations, is intended to communicate to our students about the principles of dairy production, food science and safety, environmentally sound agriculture, business management and finance, and – perhaps most important - how we can sustain agriculture in the face of land use change by incorporating all of these principles into a modern dairy farm.

Our location in Wilmington, Delaware collaborates with University of Delaware Associates in Arts student to learn and create ice cream flavors in house. The UDairy Creamery Market also offers burgers, gourmet grilled cheese, salads and produce using ingredients from our Newark farm.
