The Creamery, funded by a grant from the UNIDEL foundation and private donations, is intended to communicate to our students about the principles of dairy production, food science and safety, environmentally sound agriculture, business management and finance, and - perhaps most important - how we can sustain agriculture in the face of land use change by incorporating all of these principles into a modern dairy farm.

Our Market Street location collaborates with the University of Delaware Associates in Arts Program, employing current students to create ice cream flavors in house all while learning business fundamentals through daily operations. The UDairy Market also offers burgers, gourmet grilled cheese, salads and produce from the University of Delaware farm.
